Oct 8th

"Nail" Darling.

We were so glad to have the announcement of the photograph exhibition of "Mother Child" - How wonderful, they are all super pictures!!

Here it has been the longest & hottest summer on record & although the trees think it Autumn, with the leaves falling & changing russet, people are still lying on the grass in the sun in their short sleeves in the Park quite extraordinary -

We sail on the Q. Mary Nov: 5th for N.Y & will open Xmas there & probably go down to Jamaica in Feb sometime. We are much looking forward to getting back as nice as England is - We are

going to have Thanks giving with Ray & Paul in their new house in Hitchfield, could we oh! could we

THE DORCHESTER

PARK LANE LONDON

MADE IN ENGLAND

spend a night or two with you on
our way back to N.Y. afterwards.

I would so, & so would Devy adore
to see you. -

I miss the orange
skirts & sea weed & fried potatoes,
although I must say I do get
some of it in Jamaica, but it lacks
of waifs it can never ~~be~~ as
jootishly carefree as those
heavenly days.

All is well with us as we
hope it is with you Darling friend.

All love in which
Devy joins me.

Kib
