Saturday night.

Mummy darling,

Robbie & I have just been having a heart to heart talk which I thought you might be interested. He asked when you were coming in again etc, etc because he wants to get better aquainted. We also came to the conclusion that if I am to be the mother to Robbie that you are to me then Robbie

says he'll be satisfied. I'll be pretty pleased with myself too. I don't often get very much in your direction & I can't do half the things I'd like to for you but you're always a part of my heart & I just want you to know always mummy darling how very much I love you.

Babs

For you & Dad I have 3 hot drinks daily - to prove I do as you advise. I'm sure it does help & the new young man approves.
