4 or 6 eggs.
1 Loaf of bread
cottage cheese
sour cream.

IIIII

Dearest Mother & Dot.

ah I'll bet it is beautiful up on Bear Hill - I can just picture the colors. Texas surely misses the beauty of changing seasons but I can't fuss as actually for year around the climate is very good. Right now it's hot. We may go right into winter & skip a season. I'm glad we have an furnace & it's heat no doubt we must welcome before long.

I hope Kitten & Darby are fine now - I'm sure sorry that you one must happy to be with your grandangeles (& they with you) I'll bet Nannie is crazy about them. It's still hard to believe Nannie is born, but I'm awfully glad she is.

Last week when my sister Betty moved home her friend of me & my social activities. We had the opening day of two clubs, Wednesday & Thursday for about 200 people. I was part of the social Committee for both so was really busy - I didn't stand in the receiving line - but you should have seen me. I got all dressed up - not being able to go to dallas I had nothing but an old hat to wear & you know ladies & their hats (and then you know me.) well I had one made - at the florists.

He's wonderful anyway. He made me a little cap only it came high on top but down over my ears on the side. Used autumn colors - from mustard to bright yellow - & wore my brown dress. Needless to say, he and Ewen knew I was pregnant & were they impressed - Now I shall relate, but it was worth it.

The night Dale went to a faculty reception at college where Cub is a new professor. She wore my hat & felt like a million dollars. I never thought a hat was very important before.

Mother, the clock sounds fine. Please do send it & the mail a check as soon as you know the exact cost of shipping it. Also thank you an awful lot for the menus. I know I'll use them -

If you do see Paul - would you ask him about my Christmas presents. Always I'm aspiring. I do so appreciate your keeping me -

I wish we were all together right now - But in thoughts & in my heart we are - I love you all very very dearly & for ever.

Baby.
