

Wednesday

Dear Nell -

This has been a truly wonderful vacation - one of the nicest we have ever had - the music of "Gigi" and "South Pacific" will be our theme songs for this trip and Boromoff's Jubilee was a high point (though not really planned - it was an act of fate).

The Chess House is really a place of beauty and fun & fun - already we are planning for next year.

But, most of all we are thankful for you and for your love. God richly blessed me when I became part of your family -
Know that I love you
Margo
