Nell dearest,

Thank you for your lovely letter about the baskets. I'm enclosing some photographs of Wayne's baskets to let you see how truly handsome are those he makes. He just finished making me a fine beehive complete with hives, to go in my garden. Now I must tempt some tenants in to it!

Thank you also for the delectable loaves of bread that came with Chris. They didn't last long with all our guests and I was grateful to have them for extra fillers.

We've had such pleasingly glowing letters of thanks about the Stillwater Reunion and we are already making

plans for 1978.

It has been a deliciously hot day and I've been messing about with seedlings and garden plans. Such a delightful occupation.

My Primula are my special pride and I'm having such fun making a secret garden for them where they receive the dappled light they like. How satisfying gardening is to be sure.

Just endless love and great longings to behold your dear self again.

Tasha

Sometime when you are not too busy I wouldn't mind having the basket pictures back for the Stillwater Records. I hope this isn't a bother.
