NELL DORR

John my own darling - The day you were
born, the stars must have talked it
over to - gether and said "Now we
must plan a woman child that will
be as strange and wonderful as
this man child" - — and that

was why I was born - to compliment
all your dear humanity, - So now
when I celebrate your birthday I
really celebrate my own conception.
May we go joyously onward forever -
back to the stars - and the
gods - where we belong. Bless this
birthday of my dearly beloved.
Ever - N.
