Dear Jim:

Jam of it for one of many

more ideal days ere I am

way [illegible] - Such a day it is.

Somehow the things written quite

frankly last night disappear in the

sunlight and I see the foundation

which has no board of directors

to direct it but which has fumbled

through somehow and in spite of

[illegible] high water goes forward.

I can't help but see the others which are

so handsomely endowed and

planned - the Company - the world -

But I shall try to keep the picture

out of my mind and go on with

the foundation of Jahnah - although

the others are given first place -

except perhaps in the inner recesses of the

night -

Dr.
