

dim $\subset$ some none change not a
expansion & development before
we are set for it.

I am feeling much better
and can see a little Heaven
on earth which we can build -
if you see it with me.

Now here is another day and
this not gone. As I re-read it I am
tempted to tear it up — and write
a new and more inspired one. I
don't like to send letters which can't
be kept — and this is not
for keeping. It is for thinking about and
then tearing up. It is not really what I
want to say.

I look at the little picture of
you and I to-gether on the new heat
with the winter sun streaming in the
window - Those two people can do
anything if they keep to-gether. God
, bless you darling - do tell me your cough
is less - and that you are not under

sense of relief in making the rest of our plans. It would immediately simplify everything and be a financial help instead of loss. I should hate to see a new man put to work there - and so abroad - it seems all wrong. If I could help to make the W.B. secure and smooth and homelike, instead of always a project it would work wonders in our lives - it really would. Monday could live with Win & Bill quite happily - and everything else would await our returning - the River - the woods - the squirrels - the birds - the firecats - yes even the Hummingbird. I do see it all in harmony and I know it can be. I've been thinking of it so much - our happiness depends on working it out.

I am going over to the Hospital
for a check-up. I am sure it
will be O.K. But it made me
realize more than ever what
health means - and for me
health is dependant upon
a spiritual and mental calm.
We have got to achieve it or
we lose the best of Life's blessings.

I would not have said anything
except it seems important to face
facts and to decide upon the
important things to focus on
in life. The thought of having
a young couple with twin
boys in the W.B. with
Sandy seemed only to
complicate an already complicated
situation. Dearest, please, let
simplify rather than go in for

The real tie that binds us is so
great - it means much to so many -
that we keep well and strong and
happy. It will be remembered long
after we are gone - how we conduct
our lives, even more than what we
achieve is the way we live. Let's make
it a thing of never-to-be-forgotten reality.
So that our children and grandchildren
will remember with joy our radiant
selves.

I thought so much on the long Train
Trips here. I had the old visitus trouble
so that I could hardly stand it - and
no medicine - I thought it no good
to worry you with. Mayo started me
immediately on sulphur when I got
here - and the sulphur made
my face swell - and now
