Dear Coz -

I was deeply moved by "Life Once" and am still feeling the effects of my initial shock about Joan. The book - so beautifully done - makes the reality seem incredible.

Somewhere in 1943 I took a picture of Joan and will try to find the negative. I think it was taken - yes - in Denver and Edna loved it.

I did get Edna on the phone - to hear more distressing news. Did you know --- Evelyn died the day after Xmas! Another great loss. Edna was so pleased to hear from me - and I was too - to talk with her. She asked very pertinent questions and it made me ill to think of her incarcerated in a place she is so unhappy in. I have you so very much for the book which I shall cherish - most sincerely

P.S. Shall I send picture to your office? I have no home address for you.

James Macgovern
