Dear Cuz,

Your telephone call and our subsequent evening with you brought us the greatest of pleasure and Anne's discovery that Diane is one of her oldest friends and also your wife drew even closer the bonds of friendship which we have enjoyed with you for so many years. I hope that we can see you more frequently than in the past.

Your book is a true work of art and we feel very honored that you have shared with us a numbered copy. The book speaks for itself and in commenting on its meaning I can add nothing except to say how fortunate I feel at having been

with both of you at the beginning
of your life together in 1955.

I am glad that you were
here so that we could hear
from you about your new life
in banking and with Diane.
Best wishes to you both and we
look forward to seeing you.

Sincerely
