Dear Cuz.

Jim and I were so happy to have the chance to see you in Washington after such a long time. We greatly appreciated your taking us to Le Steak for dinner and look forward the next time to having both you and Diana here at home.

Last night I was looking once again at the beautiful book which you, the children and so many devoted friends dedicated to Joan's memory. The first page which she wrote is so rare and beautiful. I keep going back to it. We are honored that you thought to give a copy to us.

We enjoyed particularly, too, seeing all the pictures of your attractive children, and Diana still looks very much as I remember her. It is such a small world.

Our love to you both, and we hope to see you again soon. Anne
