Dear Mrs. Dorr:

We should like to tell you how greatly we enjoyed the discussions we had with you a few days ago regarding your book; we really feel very proud that you decided to entrust its production to us.

In the next few days we will send you the two dummies we talked about and which should serve to determine the volume your book is going to have a) in case the paper is used originally provided for, and b) in case of a heavier paper.

Please find herewith a letter which the New York Graphic Society addressed to you c/o J.P. Engel ; we regret that in the daily routine the envelope was cut open, which of course should not have happened in this case. We offer apologies for this.

We remain,

sincerely yours,

Engel
