Dear Mrs. Dorr:

Many thanks for your beautiful book "Of Night and Day". Mr. Hubbard and I deeply appreciate its poetry, truth and grandeur.

We are grateful to Judith Hollister for suggesting this way of bringing us together. I was unable to reach her to find out your personal address, so am taking the liberty of asking your publisher to forward this letter to you.

Next month, about the time we arrive on the moon, Mr. Hubbard's book, The Search Is On - Mankind has been born into the universe, will be off the presses and we think that you will find it of interest - the search being man's search for the Creative Intention.

With appreciation for your act of friendship,

Sincerely,

Barbara S. Hubbard
Mrs. Earl Hubbard
