(Publishers)
Greenwich, Connecticut
New York, U.S.A.

Dear Mrs. Neil Dorr,

You have been too kind to an unknown friend....You have been very considerate to send me what I have always loved...beautiful book...collection of lovely photographs, photographed by your kindself, full with great philosophy, treasure which I shall always preserve and for which I have always pined ~~xxx~~, aspired and desired to possess....., at the suggestion of my leader...our founder President Mrs. Dickerman Hollister, who has given to the world a new vision, hope and goal of mankind.." The Temple of Understanding".

" There is magic...there is music, mystry of Mankind in these four words.." The Temple of Understanding". What I had lost (HOPE) I gained when I first came to know about this great project. Hope it will be built soon.

I am not a writer and neither I can claim to be but I have tried to collect the best from friends throughout the world...with what is burning in my humble heart...a small book has benn possible...it is printed and is ~~called~~," BUNCH OF GRAPES". I am sending the same by sea mail. Named

So the man has landed on Moon. Your great country has done it again. Compliments to you all.

I sincerely hope that one day you will come to India....I am anxiously awaiting to welcome you. We shall be honoured if you will come and stay with us. I assure you that we shall look after you very well.

My love and regards for Mrs. Hollister and for you all friends who are trying their best to serve humanity.

The Spiritual United Nations P.T.D

I am very fortunate to have you as my friend.

God Bless,

Yours in Friendship

Asha Mirchandani
