Well Darling! —

We have been thinking
so much how we can
make this summer a
most fruitful one —
not spending on fortune
resides. —

How far will it take
us - if we keep on
fighting Mr. Smack! —
it will only disperse
our forces, let's forget

him & to the Singing
Earth over - elaborate
- it - to - it & to - in the
scale of the New York
with donkey cart and
all - use streams, roads,
hills, skies & wind.

Doing you might even
consent to - it - to - to
- it - in black & white -
- it would be cheaper
and very effective too.

(My favorite colour)
The French seem to do
every thing in that
colour with great success.

Now if this release of
Singing Earth would

was sat 8/3 Jan - we
might take our place
Renaissance which is
really quite good - you
never saw it -

You could take it in -
the same here - I know
you would be something
marvelous to it.

The dance would look
- deep so well for an
experimentation with
standing and fight. The
slow & restrained movement
seems to be designed for

man's possibilities.

If you think all this
nonsense, say so and we
try to think up something
else.

Can't wait for this summer
to come - let's all call -
the grass together - will

Charlie call with us or
- is he very dignified -
we don't know - if he really
expects us - we never heard
from him, maybe he'll be
very shocked when (Grace)
appears in May sometime
to look the place over.

Love to you & John
Mort.
