November 1975

Dear Photographer:

The response to our 25th anniversary photo book project has been enthusiastic. We have received and reviewed well over 15,000 photographs contributed by hundreds of photographers the world over. As a result, however, it has taken much longer than projected to edit the book and we have had to revise our original schedule for final selection of photos and layout to December, with publication set for June 1976.

Our major activity over the past few months has been that of making an initial selection of photographs to be held for final selection for the book. The screening process has been extremely difficult and many good photographs had to be rejected because they duplicated others or simply did not fit our needs. You, however, are among the photographers from whose work a final selection will be made. A list of those photographers is enclosed.

Once again, we thank you for your interest and for your support of our cause.
