Mr. Everett Brown  
Hotel Dallas Park  
Miami 30, Florida

Dear Everett:

Thank you for your recent letter of March 13.

Since I saw you last, two things have interested me greatly, both being handled by a little trust called The Dorr Foundation. One is a book by my wife called "Mother and Child" about which I am enclosing a brochure, together with comments about it from many people.

The other is a safety measure, the White Line. I am enclosing some data regarding it.

The book has now been taken for distribution by the United States Information Agency who believes it will be of great benefit in describing America to foreign people.

Sincerely,

John V. N. Dorr
