Dear Mr. Carta:

Because of your interest in the picture of the nursing mother which originally appeared in "Mother and Child" and was subsequently used by Edward Steichen in the "Family of Man", the Trustees of the Dorr Foundation, which sponsored the book, feel that your interest warrants sending you a copy. With it we are including an early book of Nell Dorr's, "The Blue Moon". This is out of print and is considered a collector's item.

It may interest you to know that the New York Graphic Society is publishing a new book by Nell Dorr entitled "The Bare Feet". It should be out by late summer or early fall. If you would care to see it we shall ask the New York Graphic Society to send you an advance copy.

Very sincerely,

Consultant
