Gentlemen:

It gives me much pleasure to
present to the Library the book -
"Mother and Child" which is coming to you
under separate cover.

You may be interested in knowing
that this book, as a publication, has been
partly financed by a Trust Fund - "The Dorr
Foundation" which believes that eventually
it may find use abroad as representing
America somewhat better than some of the
movies and other matter that get over there.

Faithfully yours,

John V. N. Dorr
