CAMBRIDGE 38, MASS.

Oct. 2nd

Dear Nell -

Your book is truly a thing
of beauty. It will, I am sure,
be a real source of inspiration
to the mothers who see it -
and the fathers too. We
are indeed grateful to you for
sending it to us, and for your
lovely inscription.

In reply to Uncle John's good
thought that the hospital gift shop

stock. The book, the people in charge are interested themselves but not terribly hopeful about sales, since the gift shop serves only visitors to ward patients - and since the M. G. H. only takes obstetrical patients in emergencies. However, I am taking it around to the gift shop at the Boston lying-in Hospital here, where most Boston babies are born, and I am sure they will enthusiastically welcome the book as a permanent addition to their stock. I can't think of anything more wonderful as a gift to a new mother.

Please thank Uncle John for sending along copies of those fine editions, and our best love to you both.

Kay
