Dr. and Mrs. Dean Clark
16 Highland Street
Cambridge, Massachusetts

Dear Kay and Dean:

I am sending you under separate cover the book, "Mother and Child" which Nell has presented to the Dorr Foundation which has financed its publication. I enclose some comments on it. The enclosed brochure may help to explain it.

It has occurred to me to ask whether it would be possible to place a book like this on sale in your hospital bookstore for I think it would make a present from admiring relatives to new mothers much more permanent than the usual bouquet of flowers.

The Dorr Foundation, frankly, is in hopes that the time may come when an edition of this book can be sent abroad to represent another side of America different from that usually shown in the movies.

With much affection,

Sincerely,

John V. N. Dorr
