

March 22, 1955

Dr. Grover C. Dillman
Michigan College of Mining
and Technology
Houghton, Michigan

Dear Dr. Dillman:

I had your letter of February 7 on my return from the South.

You might be interested in knowing that the United States Information Agency has asked for 150 copies of the book "Mother and Child" for foreign distribution.

Regarding the White Line, I find that we are already in correspondence with Mr. Ziegler. You will be interested in knowing that Utah has determined to paint 1,000 miles this year on two-lane highways and that New Jersey has already painted 300 miles.

With kindest regards,

Sincerely,

John V. N. Dorr
