My dear Doctor:

I am bringing you a copy of Mrs. Dorr's book, "Mother and Child," together with some comments about it and a short photographic history of her.

I think I told you that two weeks ago two women entirely separately told her that it had been the greatest help in changing their attitude toward husband and children. It occurs to me that you might be interested in experimenting with it regarding the psychosomatic part of your practice.

Sincerely,

John V. N. Dorr
