Dear Doreen:

Nell's book has been sent you under separate cover with a story about her from the County Fair and a list of comments from several people, dated February 8, 1955.

You will be interested in knowing that the United States Information Agency has asked for 150 copies of the book which will be sent them within the next two weeks. We are also undertaking to furnish additional ones if they should be desired.

I have read in The Readers' Digest of March the great story of Jimmy Yen and the work he is doing in the Philippines. It is certainly most impressive although I think that Mr. McAvoy, who writes these things, has the reputation of being an enthusiast and perhaps exaggerates.

Have you ever thought of going into work of that kind? It seems to me the whole problem of competing with communism in the East is one of the most serious that faces the world today and think that anyone who can contribute toward its solution would get a wonderful kick out of doing so.

If you can see any way to place orders for the Foundation for the second edition, which will be out in two weeks, I will be glad to have you do so. Meanwhile take care of yourself and find a new mycin that will not give you the trouble that you have had. I myself am not too good.

I am sure you will like what Nell has written. She is working hard and some day will have an additional book out. Incidentally, your skis are at Westport.

Yours,

John V. N. Dorr
