Dear Dr. Dorr -

Please excuse the stationary but here in the Provinces one uses whatever is available.

I arrived in Manila May 12 after an extensive trip through Japan and Australia only to find that President Magsaysay was confined with a cold and Jimmy Yen was out at some indefinate place in the Provinces. Since my time in Manila was limited I left both books with my friend John Oreudain through whom I had planned to see both President Magsaysay and Jimmy Yen. Mr. Oreudain is a former Bagues newsman and is now a very active Manila Attorney and personal advisor to President Magsaysay. Mr. Oreudain assured me that the books would reach their destinations but I will check again when I return to Manila in about a month.

It is very warm here, especially to one who spent the winter in northern Italy, but I find that I notice the heat less each day.

I expect Emil Nibel to arrive in a day or two. The company will certainly be welcome.

It was a pleasure to receive word that Sankie closed the Shin Nippon Fluorolube order.

Sincerely, Richard M. Foley
