Dr. Paul D. Foote  
P. O. Drawer 2038  
Pittsburgh 30, Pennsylvania

Dear Paul:

I want to tell you how much I enjoyed our visit to Pittsburgh and contact with the Directors of Industrial Research, especially seeing your good self.

I will try and get you information regarding the thorium in a few days.

I am going to give myself the pleasure of presenting you and Mrs. Foote with a copy of my wife's book, "Mother and Child," which I am sure you will both like.

With kindest regards to you both,

Sincerely,

John V. N. Dorr
