J.V.N.D.

Dear John:

Many thanks for your friendly letter of the 4th inst. It was a pleasure to know that Nell and you are working indefatigably as ever, you in your own ever-expanding field, while Nell continues to use her wonderful talent for bringing home to us, by word and picture, the miracle of maternity. What a revelation it would have been for her to meet Marguerite's uncle, Eugène Carrière, the great painter of maternities, but for him, too, it would have been a revelation to meet one with such a reverence for life and, above all, for the mothers who are creating it.

How fascinating must be Nell's "Mother and Child", with its text and its illustrations, to call forth such observations as those of Arthur Rushmore, Carl Sandburg and Sir Harold Hartley in the folder you sent me! It is the kind of book that should be given to every bride and I will gladly send one of these folders to the parents among the friends who have daughters who are to become brides. The feelings of Nell remind me of those of Dr. Albert Schweitzer whose philosophy includes also this doctrine of Buddhism.

It will be a privilege to see you again and I will take advantage of your suggestion to telephone your office and arrange for a luncheon meeting. You can then tell me more of the Dorr Foundation and of its interests.

With all good wishes meanwhile and kindest regards to Nell, you and all your dear ones,

Very sincerely,

Louis A. Freedman
