1108 OHIO STREET

LAWRENCE, KANSAS

July 5

Dear Tom and Toshie -

You are about to have
a guest from Kansas.
If (and don't hesitate to
~~say~~ say honestly if it is impossible)
it meets your own plans,
I think I could come to
see all of you the aft. of
July 13 and leave the next
a.m. ^{on} from the nearest point
going to Boston. Otherwise I
can go back to Boston
that night. If staying

over one night would put
a burden on Tosho I
should not do it. I'd love
to be here long enough to
get the feel of the place &
to know you a bit. People
in to who love the books
would love to know you
from my visit. makers of
books are so far away from
our people. They are
so appreciative of every
contact - even visitors.

Did you send Maun and
Child? It has not arrived
& I am worried. The
prospects (seen with hammer)

followed me to Chicago on
 both meetings of P.T.A. I
 passed the prospectus
 around at Board meeting
 & people were charmed.

Dr. Raistana (a woman
 physician from Finland,
 wife of ^{an} Fisher, an architect
 in Denver) was delighted
 because she & her husband
 have entertained the son
 (I believe) and ^{his} wife of
 Dr. Dor. She is ordering
 several copies.

The baby on the front
 could be our oldest.

Perhaps I should get a

copy of the book + use
a few photos of your
children from it —
opened of course — not
removed!

I can hardly wait to
see Jugis + Pickles + the
Doris House + all of
you. In any case,
whatever you write, I'll
show from Peterborough
to be sure all is well.

Cordially — and hopefully

Russ Gagliardo
