N.Y. Hollywood - 46

Dear John: This is the first
chance I have had to drop a
note as we are working long
hours in the valley where it is 98°
in the shade on cool days.

I wish I had the time to ex-
plain picture business or what
happened with Nell's looks when
I asked Mr. Laughlin to look at
it. When we meet I will tell
you in detail. I am afraid if
I approached him in the manner
you suggest I would find myself
out of the picture and on my
way home without a job.

However I will write and send
a letter to Mr. Egan at once.

Nannie arrived Sunday and
thinks California beautiful. We
ought be finished in another five
weeks, so will explain all when
I see you. Meanwhile our love
William.

Sept. 8th -
