Dear Dr. Highet:

Harpers has asked if the enclosed quotation from yourself, among a variety of others, could be used in an advertisement by them.

You will be interested in knowing that the United States Information Agency has asked the Dorr Foundation for 150 copies of the book for distribution to their libraries and also for a promise of further books in case there is a demand. We have had so many testimonies as to the personal value of the book to many people that we are most happy to make this distribution available.

I trust you will have no objection to this quotation from yourself.

Sincerely,

John V. N. Dorr
