Boston 7, Mass.

2 Park Street

Dear Mrs. Leonard:

Thank you for your letter of February 5th.

I have quite a number of photographs that might cover the field you mention but would need some time to select them. I have just returned from Jamaica and hope to be able to go to my studio in Washington, Conn. in about ten days when I will look up anything that might fit the category you describe.

In the meantime, I am sending you herewith a copy of my last book "Mother and Child" which includes the photographs you saw in The Family of Man. I feel, however, as you can see from the nature of these photographs, that my pictures might not have the casual candid camera angle with which you probably treat the subject of your book. Should you find that you could make a selection from any of these photographs, please let me know.

I shall get in touch with you as soon as I have had a chance to look through some other photographs I have in mind.

Sincerely yours,
