July 22, 1955

Mr. William R. Huntington
St. James, Long Island

Dear Mr. Huntington:

Thank you very much for your letter of July 19th.

I am glad to know that Mr. Ames is also a Centurion. I have threatened several times to invite the Fairfield County members of the Century Club to a small party at our house here to show them the mill and the movie of which you were told and your letter encourages me to consider it. If I do so, you and Mr. Ames will both get special letters of invitation.

Having been with Ed Lowry on Seven Farms, I am very much pleased that the next sod roof house will be located there. I recall seeing in July a very large tree at one old place, covered with dogwood blossoms, which seemed to me out of keeping as ours have bloomed in May. Later I found it was a Chinese dogwood. We have two on our place but so far they have refused to bloom.

It may be that Mrs. Dorr may have her new movie ready for the gathering of Centurions in which case I certainly will hope to have all of you see it.

Sincerely,

John V. N. Dorr
