Dear Mr. Dorr –

You gave me such a very hospitable + interesting reception last week, on my pilgrimage to visit your sod roof, + showed me so many marvelous things of your place + of your life, that I have much more to thank you for than just the reassurance regarding roof construction, + I write in gratitude for all of it.

My clients, Amyas + Evelyn Ames (he is also a centurion, + she, as I told you, a poet) were enchanted with "Mother + Child" + with the pictures of + references to, Mrs. Dorr that went with it, (+ with my descriptions + report of my marvelous impressions of both of you) + hope some day that they will have the privilege + pleasure

of meeting you too. To visit you again myself also — I did have not a very fleeting glimpse of your wife — is something I look forward very much to. I had better hurry up & get the Sons well built, & then we can all come & report to you of that. I thank you once more for the encouragement & inspiration.

But I really want to thank you now, & then, for, especially, the great fun it was to spend the morning with you.

Sincerely,

Wm. R. Huntington
