Mr. Wilbur Jarvis
LIFE News Bureau
1320 Statler Building
Boston 16, Massachusetts

Dear Mr. Jarvis:

Mrs. Dorr told me of meeting you at Tasha Tudor's house and that you are going to be up there when the wedding takes place on the 18th of June. I think she told you also that she has been studying the question of a movie to be done at that same time. While this is Tasha's party, I thought you might like, for your files, something further in regard to my wife, as you were interested in her book.

I am enclosing a reprint of an article about her appearing in the COUNTY FAIR, a Fairfield County publication, together with a brochure about "Mother and Child" and some comments on it which apart from the enthusiasm they show for the work itself, I know you will enjoy as interesting creative writing.

On the chance also that you are interested in highway safety, I am enclosing some data on an idea that I was fortunate to get started in Connecticut which I think will have far-reaching consequences. It may seem curious to you, as, in fact, it does to me, that two such divergent ideas are sponsored by a small organization which I call a catalytic foundation as it lacks the necessary ciphers on the right-hand side of the balance sheet to be entitled to that important word "foundation."

I assume your headquarters are in Boston but if you ever come New York-ward over the Merritt Parkway, you will see the White Line, and we should be glad to show you some odd things a mile north of Exit 42 at Westport where we are part of the time.

Sincerely,

Enclosures
JVND/est
