INDUSTRIAL AND GOVERNMENT RELATIONS

September 27, 1955

Dear John:

"Mother and Child" by Nell Dorr has just reached my desk. It is a tremendous contribution to photography and the world's literature. I can hardly wait for Nettie to return to enjoy the book with me.

Nettie arrives on Thursday morning. In a few minutes I take off for Bucknell University to attend the dedication of the new Olin Science Building tomorrow.

You're trip to Pittsburgh was most thoroughly enjoyed by me. It is a great stimulous to have you as my friend.

Faithfully yours,

Webster N. Jones
