99 Park Avenue
New York 16, N. Y.

Dear Dr. Dorr:

Many thanks for your letter of March 22nd. I was very interested to read of the progress that the states are making on the matter of the "White Line". The main highway which runs close to my home has been painted with the white line on the outside. I think the idea is a splendid one and before long highways throughout the country will be painted with the white line on the right hand side as well as in the middle of the road. You are to be congratulated for sponsoring and pushing this grand idea; it is helpful to the motorist.

I was also interested in reading the commentary on Mrs. Dorr's book entitled "Mother and Child". Ever since you spoke to me about it at one of Rutgers Trustees meetings I had been wanting to send for a copy and this affords an excellent opportunity for me to do so. I am enclosing check for $4.50 to cover the cost of this book. If it is not asking too much I would also like to have Mrs. Dorr autograph the book. I have a collection of autographed editions and I think it would be very nice to have this one among my collection.

I hope to visit with you at your office some day as I have a feeling there is a great deal of opportunity for your company and our company to be of assistance to one another and I believe that this idea should be explored at a meeting. You have given me the invitation to do this and I have been negligent in accepting your invitation, but would like to do so in the near future.

I also hope to have the opportunity of seeing you at a trustees meeting soon. As you know, the Board is going through some trying times at this moment but I am sure from recent developments that the committee working on reorganization will come up with a sound solution.

Yours sincerely,

Charles A. Jurgensen
