Dear Olga and Hans:

I am sending you, under separate cover, Nell's book, "Mother and Child", which as we may have told you has been published by Harpers through the financial aid of The Dorr Foundation.

The Foundation undertook the publishing of this book because it felt that it has a message to give around the world to tell of America in a way that most of our movies and other things do not tell.

Several people that we have seen abroad have suggested that it could be of greater service than The Voice of America but I think that that has nothing to do with the case. Any thoughts you have as to how this could be accomplished would be greatly appreciated by us.

With kindest regards,

Sincerely,

John V. N. Dorr
