November 6, 1957

Mrs. Wayne E. Kuhn
Texaco Research Center
Beacon, N Y.

Dear Mrs. Kuhn:

I want to express my great appreciation of the wonderful work your husband did in entertaining the directors of Industrial Research and the most efficient assistance given by his and other better halves in the situation.

My wife was indeed sorry that she had not been able to come and has asked me to send you under separate cover a copy of her book "Mother and Child".

The copies we have left are all indicated for being sent abroad as was the original idea with our book when it came out, sponsored by The Dorr Foundation. We have felt it, however, a privilege to give copies to those who would appreciate it.

With kindest regards and hoping that some time, if you should head up near Washington, Connecticut, we might have the pleasure of seeing you there,

Sincerely,

John V. N Dorr
