

March 3, 1955

Mrs. Edith M. Lawrence
1017 Oliver Street
South Pasadena, California

My dear Mrs. Lawrence:

Mrs. Dorr gratefully appreciated your letter of February 17.

I have thought you might be interested in the enclosed data regarding Mrs. Dorr and a few comments on the book by other people.

Mrs. Dorr gave the book to The Dorr Foundation for distribution and you will be interested in knowing that the United States Information Agency have requested copies for world-wide distribution.

Its impact on different people is quite varied. At a small party the other day one mother directly and another by message told her that it had changed their attitude toward their husband and children by emphasizing the beauty and importance of motherhood.

If you should come East we would be very happy to see you, either in New York or Westport where we now are, and think we may see you in Los Angeles.

Sincerely,

John V. N. Dorr
