February 17th

My dear Mrs. Dorr,

Your friend, Mabel Todd, has given me the privilege of seeing & reading your charming books "Mother & Child".

We live in the midst of mysteries of love, in & about us, & yet we need reminding. This your books does, bringing to the eye & the ear these cosmic realities & making them live.

When I was young, I studied photography under Clarence White. It would have been a life work for me, but I married & the war came, & the babies, & it all was put behind me. But deep appreciation stayed. And I can truly say that your work is beautiful art.

It has the genius of caring & the
sureness of a master craftsman.
This is but a note to carry
appreciation.

Yours sincerely,

Edith M. Prince
