Mr. Philip LeClerc
Community Center
Baie Comeau, Quebec

Dear Mr. LeClerc:

I am sending you under separate cover for your library the book of which the enclosed brochure tells. My wife has presented it to a small organization called The Dorr Foundation which has financed its publication. Many who have seen it abroad feel that it should carry a message from America to other people and perhaps counteract some of the effects of the poorer elements in our movies and television programs.

It was a very great privilege to see your institution and I cannot be grateful enough for the hospitality that I received at Baie Comeau. Please give my compliments to the Mayor and any of the others who were so kind to me.

Kindest regards.

Sincerely,

John V. N. Dorr

Enclosures

P. S. Nearly half the children shown belong to Tasha Tudor whose picture is shown leaning over a young baby. The picture in the center of the book of the dark-haired mother with an older child is that of my wife's daughter who passed on.

(Enclosed brochure on "Mother and Child" and reprint "JVND in San Francisco" on White Line as appeared in Dorrco Doings)
