November 29, 1954

Mrs. Phillip Lounsbury
125 Northfield Avenue
West Orange, New Jersey

Dear Mrs. Lounsbury:

I am enclosing herewith some story of Mrs. Dorr who wrote the book, Mother and Child, which I think you may find interesting and am sure it might interest people considering purchasing it.

I write blatantly about this as the book has been published by the aid of a charitable foundation called The Dorr Foundation in which I am somewhat interested. They took it on the belief of the Trustees that it should eventually go abroad and represent America in a much better way than many of the things now do such as the movies and Wild West stories.

Newark interests me as I was born at 224 Roosevelt Avenue, Newark in 1872 and between '88 and '90 worked for Thomas Edison at West Orange, leaving there to go to college at Rutgers where I am now a Trustee.

I would appreciate greatly any information you wish to give me as to the reception of this book at the Presbyterian Hospital and the Foundation would be very glad to send a dozen books or so over on consignment.

Sincerely,

John V. N. Dorr
