Dr. Charles Malik
Minister of Foreign Affairs of Lebanon
c/o Council on Foreign Relations, Inc.
58 East 68th Street
New York 21, New York

My dear Dr. Malik:

I am sending you herewith a book by my wife, entitled "Mother and Child", which I trust will interest you. You will note it has been distributed in foreign lands at the suggestion of the United States Information Agency.

The same organization, the Dorr Foundation, has undertaken for the Committee on the Aging - of the National Social Welfare Assembly - a study of what the scientist wishes to do on retirement, and as a by-product, recalling your statement that the Near East needed "more love and less money", we have thought that it might be feasible, through proper channels, to find a number of suitable people who would wish to come to the Near East for teaching purposes on a three or five year basis.

Having them in touch with the educational organizations there, a year or two ahead of their actual separation from their jobs here, would enable them to go as friends with friends and therefore by more useful.

Our organization has also contributed scholarships to Robert College, of which my brother, Goldthwaite H. Dorr was Chairman of the Board for a number of years. It is possible also that you know my nephew Russell H. Dorr, who was E.C.A. Administrator in Turkey a few years ago.

I have not been in the Near East myself, but the organization of which I am Honorary Chairman, Dorr-Oliver, Inc., has six subsidiaries in Europe and one in Bombay and it has long been my ambition to visit the Near East when opportunity serves.

It will be a privilege to hear you tonight and I hope I may meet you.

Sincerely,

John V.N. Dorr - Chairman
