Dear Mr. Marvin:

I have your letter of March 25 to Mrs. Dorr and we are delighted that you liked "Mother and Child" so much. If we ever find a copy of "The Mangroves" we will send you one. "In a Blue Moon" is practically gone.

If you have a copy of Steichen's book, "The Family of Man," you will see that it contains four pictures by Mrs. Dorr.

Incidentally, do you do anything with films? She is now working on a film about children that I believe will be very successful. Did you ever see her film "The Singing Earth" which is rentable from the Museum of Modern Art? The most important one she did, "The Dorr Way", was for our own company, a documentary film covering roughly the face of nature.

Columbus is close to me as we have two very dear friends in Westport, graduates of the University, Charles and Charmie Speaks.

With best wishes,

Sincerely,

John V. N. Dorr
