Mount Holyoke College
South Hadley, Mass
February 1, 1955

Dear Dr. Dorn.

It was thoughtful of you to send the Christmas greeting. I was glad to learn, too, that the situation of which we spoke was taken care of for the time being.

When I was at home for the holidays my brother-in-law, Dr. Adolphe Zimmerli, of New Brunswick, told me that he had met you - at some scientific meeting, I think. He was interested in my report of our telephone acquaintance.

I have made note of your address and telephone number, and perhaps I may be able to call briefly some time when I am in New York. My trips there are somewhat infrequent and often very crowded with business engagements — but I may be able to manage it before too many months.

Sincerely yours

Heen Voorhes
