June 21, 1955

Mr. George C. Murphy, Jr.
Employment Supervisor
General Foods Corporation
Research and Development Department
Central Laboratories
11th & Hudson Streets
Hoboken, New Jersey

Dear Mr. Murphy:

I should have acknowledged your letter of May 6 earlier but quite understand slips happen in the best families.

You may be interested in knowing that Miss Baker has at job at M. I. T. with a friend of hers and is very happy.

I would be very happy to see you if I came over and meanwhile I am sending you two bits about two things that interest me and which may interest you. The White Line will be more efficient the more people boost for it, and as for "Mother and Child", those that have it love it and I could tell you many good things said about it. If you are interested in having a copy, send a check here and it will be mailed to you.

Sincerely,

John V. N. Dorr
