Dr John V N Dorr
Weston Road
Weston, Connecticut

Dear Dr Dorr:

I think your idea of selling the book of babies' pictures through the hospital has excellent possibilities.

I am turning your letter over to the office of the hospital Volunteers, who conduct the Corner Shop, where such a booklet might make a very fascinating souvenir of a baby's birth. When I receive the copy which you kindly say you are sending, I will give it to them and ask them to communicate with you directly.

Unfortunately, I am afraid we cannot be as helpful in the hospital on the matter of highway safety but that is very interesting to me personally and I am glad to have it.

You are a fine friend of the hospital and we are all grateful for your help and interest.

Yours sincerely,

Victor W Knauth
