My dear Mrs. Porter:

I have your letter of the tenth of February enclosing the clipping regarding the White Line. Like most things in the newspapers, it got terribly garbled in regard to my wife. It is, however, a valuable thing and we are pushing it with an organization called The Dorr Foundation;

One other thing that the Foundation is interested in that may interest you is a book called "Mother and Child" which my wife brought out last fall. I am enclosing a little story about it together with some comments by many people on both sides of the water. You will be interested to know that the United States Information Agency has asked for 150 copies which the Foundation is giving them. I hope to have it on sale in England but to date nothing has been done about it.

It was very nice to have your husband over here though I only had a glimpse of him.

With kindest regards,

Sincerely,

John V. N. Dorr
