Lady Dhanvanthi Rama Rau,
care of Mrs. F. Bowers,
126 East 95th St.,
New York 28, N. Y.

Dear Lady Rama Rau:

I regret very much that my wife was not able to come down from Connecticut to have the privilege of meeting you this afternoon, but I am sending a copy of the book of which we spoke with her and my best wishes.

May I tell you how deeply interested I was in the wonderful talk that you gave at the meeting yesterday. It was a great inspiration to me. To make the problem still harder, I hope in some way it will be possible to contribute toward the natural selection of the babies to be planned for, thus contributing toward the wefare of our race.

The man who discussed with me the practical application of our idea was Mr. Hanspal. I will look him up quietly here and through Mrs. Bhoota, whose husband is connected with Dorr-Oliver Ltd. (India) in case something should look feasible.

Sincerely yours,

John V. N. Dorr.
