Dear Nell:

I sent John a letter on April eighth, thanking him for the copy of your beautiful book "Mother and Child" which you so generously sent from his office as a gift to our Briarcliff Library.

On second thought, I have decided that I should send a note direct to you at home to tell you how greatly we appreciate your thoughtful kindness. The book is an extraordinarily effective and splendid piece of work from many, many points of view. I assure you that it will be read and enjoyed by many girls for many years.

To me it is incredible that with the camera as a mechanical instrument, you could have so subtly captured the essence of life and of human relationships.

With fond greetings, and hoping to see you both soon,

Yours cordially,

Mrs. John van Nostrand Dorr

P.S. Please tell John that Russell Dorr's daughter was accepted this afternoon by our Committee on Admissions for the incoming freshman class next September. His letter about her was definitely a help to the Committee.
